## LANGUAGES

English

## EXPERIENCE

- MAR 2023 - NOV 2023

**COMPUTER TECHNICIAN**  
**Pioneers**  
Worked at Pioneers of commercial handles Company as a Computer Technician and Sales Manager. It was a wonderful journey through which I gained significant experience, including dealing with customers, negotiating with suppliers, and acquiring computer-related skills such as Excel, accounting software, and preparing detailed operational reports.
- JAN 2024 - PRESENT

**FOUNDER**  
**Sayer**  
Led the end-to-end technical development of the platform, overseeing programming, software design, and implementation. Gained extensive experience in launching and managing startups, focusing on market analysis, strategic planning, and business model development. Specialized in the FinTech sector by ensuring regulatory compliance and understanding legal frameworks associated with financial services. Managed diverse responsibilities, including product development, growth strategies, and continuous innovation, ensuring the platform met market demands and adhered to regulatory requirements.

## EDUCATION

- BACHELOR-COMPUTER SCIENCE**  
**King Faisal university**

## PROJECTS

- Sayer platform Sayer is a financial intermediary that collects and provides many financing options in one platform. One of the projects incubated by the Entrepreneurship Center at King Faisal University, and the winner of the first place in the "KFU Challenge for FinTech" and also the winner of the fifth place in the "CODE" competition.
- AI-Based Reporting Automation Developed an innovative AI-driven solution to streamline and automate the process of filing and managing reports. The project was recognized for its impact and innovation, qualifying as one of the top 20 teams in the prestigious "Absher 4th Competition."
- Musaed The "Musaed" project is an innovative platform that relies on artificial intelligence to provide support in strategic planning and preparing business plans in a comprehensive and professional manner. The project aims to help individuals and companies make informed strategic decisions by analyzing strengths and weaknesses, preparing detailed reports, and creating timelines supported by graphs and comparison tables. "Musaed" is distinguished by its ability to provide high-quality outputs, such as professional PDF files, carefully designed to meet the needs of users and displayed in their preferred language. The project contributes to facilitating the planning process by relying on user inputs and analyzing them using advanced technologies, making it an effective tool for anyone looking for strategic solutions that support the success of their projects.
